

Alerts.com NEWS: Brookside Tech (OTCBB: BKSD) set to spike as businesses quickly shift to VoIP Fortunes can be made as businesses look at their phone bills!

PRICE INCREASED 6,5% on Thursday  
We expect steady moderate growth all the next week.

(OTCBB: BKSD). This young, energetic company is set to soar, thanks to the frenzy driving businesses to shift to VoIP (voice over Internet protocol).

Get up early and don't take your eyes off (BKSD.OB) on FRIDAY 10 August 2007!

It started small, but it became a decent crowd of beer-holding guys. I was like, "There are naked girls inside; shouldn't you be in there?" So, put an OBD I cat on an OBD II car and you might fail. It took us a few tries to get used to the setup, but after a few runs, we had stable baselines. A lot of the guys I know smell good, and that's a turn-on. I've seen your bikini pictures and your smile wasn't the first thing I noticed. You can check my Web site for updates. After I posed for Playboy I asked the photographer to give me a chance to be his producer. Eager to see what we could gain by uncorking the exhaust, we bolted on the first aftermarket. Which movie star turns your head? So how did modeling happen? When we saw some of her portfolio shots we knew we needed her--so much that we sent a photography team out to the backwoods of the Sunshine State to capture her. Does HIN know this? Using solid pillow-ball joints creates a more predictable setup as far as the movement of the car, but has potential for a rougher ride," said Pfeiffer. Just how much power are they gaining, and is it really worth the risk? If the thought of I can guarantee those factory bushings are worn-out and pretty much useless. Problem is we shot first and asked the questions later. I run around taking care of everything behind the scenes, like making sure lunch is there, preparing the location, making the sure the model is doing a great job. OBD II cats are required to remove about 90 percent of emissions, while the OBD I cats are only
